*** Amos Kimball was born on August 31, 1750. Amos was a resident of Haverhill, NH, and he was the builder of the first bridge across the Connecticut River, in Woodsville. The location was just south of the community field on the west end of Ferry Street. At one time there was a toll house by the river's edge. Ferry Street is directly across from the foot of Cheney Hill, on South Court Street.

Amos Kimball purchased what was known as the Atkinson Farm on January 27th, 1795. He bought it from George King Sparhawk and later, (4-23-1827) sold it to John Angier. Angier was a doctor and the old cottage hospital building was built for Dr. Angier in 1827. The doctor was killed after being thrown from his buggy in 1836.

Records show Dr. Angier sold the Atkinson farm the same day he purchased it! The land was later known as Wallace Hill and is now Hastings Hill.

Angier sold the farm to Dudley C. Kimball. It is likely only a part of the farm was sold because Dr. Angier later sold the farm, or part of it, to Francis D. Kimball on January 8th, 1828.

Amos Kimball sold it back to Angier a day later! And, Dr. Angier then sold it to Windsor Cobleigh on April 9th, 1838. Go to the "H" file (Hastings) for the complete sale history of this property.
